## Internship certification

### To Whom It May Concern:

Mr. Zhubo have been working in our Search team from July 2008 to October 2008 as a excellent java software intern, His did quite a few code level research and bug fix works on eBay's global site, joined some project like "eBay result set 2.0" and successfully build the data access layer for it. Apart from that, he also did some server migration works on Linux platform, we appreciate his contribution to the team, he leave us due to busy graduate design and paperwork in school.

Sincerely,

Manager:

Human Resource Department:

October 19, 2007
